Teaching program committee report

Date: 08th April 2019

Agenda of the meeting

1. A meeting would be conducted regarding the time table of BDS 1st term.
2. A notice was sent for the same.
3. Some changes were suggested verbally by basic medical I sciences staff
4. They would be requested to give the same in writing
5. The practicality of suggested changes to be discussed

Minutes of the meeting

According to the agenda, a meeting was held. The following points was discussed.

1. The practical classes of 1st and 2nd year BDS were being conducted in medical college premises. The classes include Anatomy, Physiology, Pharmacology, Biochemistry and other medical sciences subjects. It was stressed in the meeting that a collective decision has to be made when any suggested changes have to be implemented.
2. It was also felt that number of afternoon lecture hours could be decreased.
3. It was decided that the practicality of application of these changes can be discussed and done with the presence of concerned medical staff.
