FOUNDER - CHANCELLOR

Dear Students,

I am indeed happy to note your interest in joining our University. In this small booklet we have presented a brief profile of our Bharati Vidyapeeth University. I would very much like all of you to know about Bharati Vidyapeeth University and its parent body Bharati Vidyapeeth because these two institutions are distinct from others of their kind in many respects. I established Bharati Vidyapeeth in 1964 with a realization that the all sided social transformation can be brought about through the spread of education. During the last 46 years, we have established more than 171 educational units of various kinds right from Pre-Primary School up to the University in different parts of India and even in the capital city of New Delhi. Bharati Vidyapeeth is an institution with its distinct ideology, which can be briefly stated thus.

Our objective is: to make quality education accessible to the students coming from different regions and different strata of the society and to provide the same to them as per their individual choices and inclination at affordable prices.

Our constant endeavour is to create ambiance in the campuses propitious for learning by providing continuously updated courses and with the help of enriched infrastructural facilities such as well-equipped laboratories, rich library and well maintained playground, hostels.

It is a gratifying experience for me to know that thousands of students who have passed out from the portals of our institutions have established themselves very well in different walks of life.

In April, 1996, the Government of India conferred the status of University to a cluster of our institutions in accordance with the provisions in the University Grants Commission Act, 1956. Since the inception of this University, our endeavour has been to develop it as a lively and throbbing center of learning and research. I am very happy to say here that within the short span of a decade or so, this University has established its academic reputation not only across the country but also outside. This is evident from the fact that we get students from different parts of India and also from different countries. Our both the campuses in Pune are very well planned and developed. They can be easily compared with the leading educational campuses in the country. We provide all the necessary amenities and facilities to our students on our campuses.

What we have achieved so far is definitely commendable. But I am aware there is still scope for us to better and to reach the higher pinnacles of academic excellence. I have no doubt that we will be able to achieve these objectives in cooperation with our faculties of various institutions which include expert, experienced and student caring teachers.

I wish, you will be one of those fortunate students, who will get admission to one of our colleges. I assure you that your life in our campus will be richly rewarding, academically and otherwise also.

I extend my best wishes to you all for a success in the Entrance Test for which you are appearing, as well as, for your future successful professional career.

We say it with a sense of pride that Bharati Vidyapeeth Deemed University is probably a unique University in India having institutions of several faculties together on one campus. The University thus provides a wide range of educational opportunities to the students to make choice of their career. We give the best possible education and training to our students with a view to equip them for better professional and personal life.

Dental College & Hospital, Navi Mumbai

Our Dental College was established in 1989 to fulfill aspirations of students from the region to obtain professional education. This was the first such private initiative in the state of Maharashtra. In 1993, the Dental Council of India recognized the B.D.S. degree of our dental college. Since then we have made great strides in terms of faculty, infrastructure and academic reputation. The college is housed in a building having an area of 207000 sq.ft. including Post Graduate and Research wing. All our graduates have made a name for themselves in practice, employment and higher studies; in India as well as abroad.

Recognition of this was the 'deemed university' status granted to us in 1996. In our pursuit to further raise standards of education and research, the year 2002 saw us start postgraduate courses. The Government of India, on recommendation from the Dental Council of India recognized the MDS course in eight specialities. From the academic year 2009-10, the permission to increase the Post Graduate admission capacity in the subject of Orthodontics and Prosthodontics was given by Government of India, and from academic year 2010-2011, the permission was also granted to increase the Postgraduate admission capacity in the subject of Pedodontics and Conservative dentistry.

We not only aim to make a competent specialist, but also to inculcate strong ethical values, an analytical attitude and skills for self-learning. The faculty and infrastructure have been strengthened to ensure achievement of these objectives. Many of our faculty members have earned repute at national level- in academics, research and practice. Our institute organizes National / International seminars, conferences & Workshops at our premises for the professional betterment of students & staff.

We have provided ample space, and equipped our clinics and laboratories with modern equipment and materials. Our own operation theatre (besides full access to the advanced OT Complex of 870-bed Bharati Hospital), titanium casting equipment, ceramic fabrication systems, laser equipment, dental implant system research microscopes and digital imaging systems are but a few examples. Besides speciality training, as a postgraduate student, you can look forward to training in basic medical and dental sciences, scientific literature search and appraisal, research methodology, Biostatistics, evidence-based methods, computer applications and presentation skills. You will also get training in multi-speciality and multi-system management of patients.

Regular continuing education programmes- to keep the students and faculty abreast with the latest knowledge, materials and techniques- is a hallmark of our course plan. Excellent hospital and diagnostic facilities, an extensive collection of resources in the library, and teaching-learning aids and material in every department form the backbone of postgraduate training programme. A transparent and continuous system of monitoring and evaluation is an important component of the programme. A large number of patients with varied pathology, that our postgraduate students get to manage, shall give them the confidence required for independent speciality practice.

Join us and realize your dreams. We shall make your dream come true at Bharati Vidyapeeth Deemed University Dental College and Hospital, Navi Mumbai.
