**Department of Periodontology and Public Health Dentistry**

1st August is celebrated all over India as Oral Hygiene Day in the loving memory of Dr G B Shankwalkar who was a renowned Periodontist and also the founder of the Indian Society of Periodontology.

The Departments of Periodontology and Public Health Dentistry jointly celebrated this day today in our college by organizing an Oral health awareness campaign for all the patients visiting our Institute .

.Oral Hygiene techniques are being demonstrated by the Interns. The day began by offering floral tribute to the portrait of Dr Shankwalkar.

All the patients were given free samples of tooth pastes sponsored by the ICPA company. Also flap surgeries carried out free of cost for patients registered today.

## ORAL CARE FOR A DIABETIC PATIENTS

- ❖ Maintain normal blood glucose level.
- ❖ Before meal 90-110mg/dl and two hours after meals 120-140mg/dl
- ❖ Self examination for bleeding & swollen gums.
- ❖ Visit dentist every 6 months since there is increased prevalence & severity of gum diseases in diabetic patients
- ❖ Increased chances of dental infection & caries are seen due to dry mouth that can be prevented by using sugar free chewing gums, increase water intake & fluoride application.
- ❖ Bad breath can be prevented by regular brushing, flossing & use of mouthwash. Clean your tongue regularly & avoid sugary food and drinks.
- ❖ Denture wearers must clean their dentures to avoid fungal infection. Avoid wearing dentures at night. Inform your dentist incase of ill fitting dentures.
- ❖ Burning mouth can be avoided by sipping water frequently, taking nutritional supplements. Avoid hot and spicy food.
- ❖ Treating underlying health disorders & carry out stress reduction with adequate sleep.
- ❖ Medication / insulin dose and meals should be taken before visiting the dentist.

SABAHAT, SHWETA (Interns 16-17)
