

BVDU Dental College started its University Education Program in Essentials in Implantology on 28th July 2022. It is a first of its kind clinically oriented module based program in our college consisting of the three modules. The first module (2days) was successfully conducted on 28th-29th July in our college. Dr. Kanir Bhatia a renowned Implantologist (Diplomate, International Congress of Oral Implantology) was the Guest Speaker from Nobel Biocare. The participants will be taught basics of Implantology with hands on on patients in a scientific and structured manner giving them adequate clinical exposure in basics of Implantology.
